

An update on the...

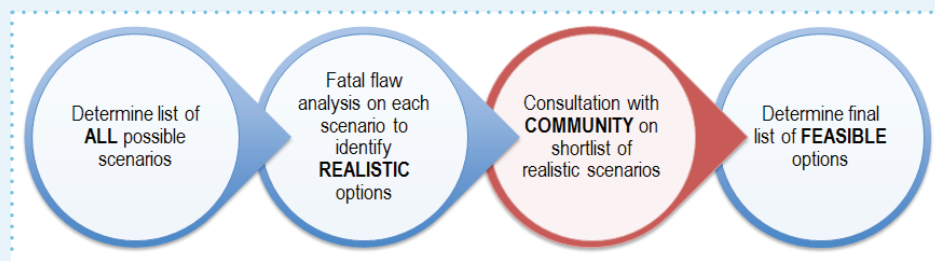

South-West Wastewater Servicing Project

Work has been carried out to identify options for managing wastewater from the growing communities in Kingseat, Clarks Beach, Glenbrook and Waiuku. This newsletter provides an update on what we have been up to so far, a brief outlook at the next stage of activities and dates for community open days.

Why do we need to service growth in the South-West?

Where are we now?

What happens next?

We have planned dates for community open days where we encourage you to come along to talk to the project team and provide us with your feedback. We will use this opportunity to present our list of possible options and for you to provide us with invaluable feedback through an open forum.

FAST FACTS

South-West Franklin is currently serviced by

**THREE
WASTEWATER
TREATMENT
PLANTS**

at Clarks Beach, Waiuku and Kingseat.

Watercare invites you to an open evening to find out more about the project

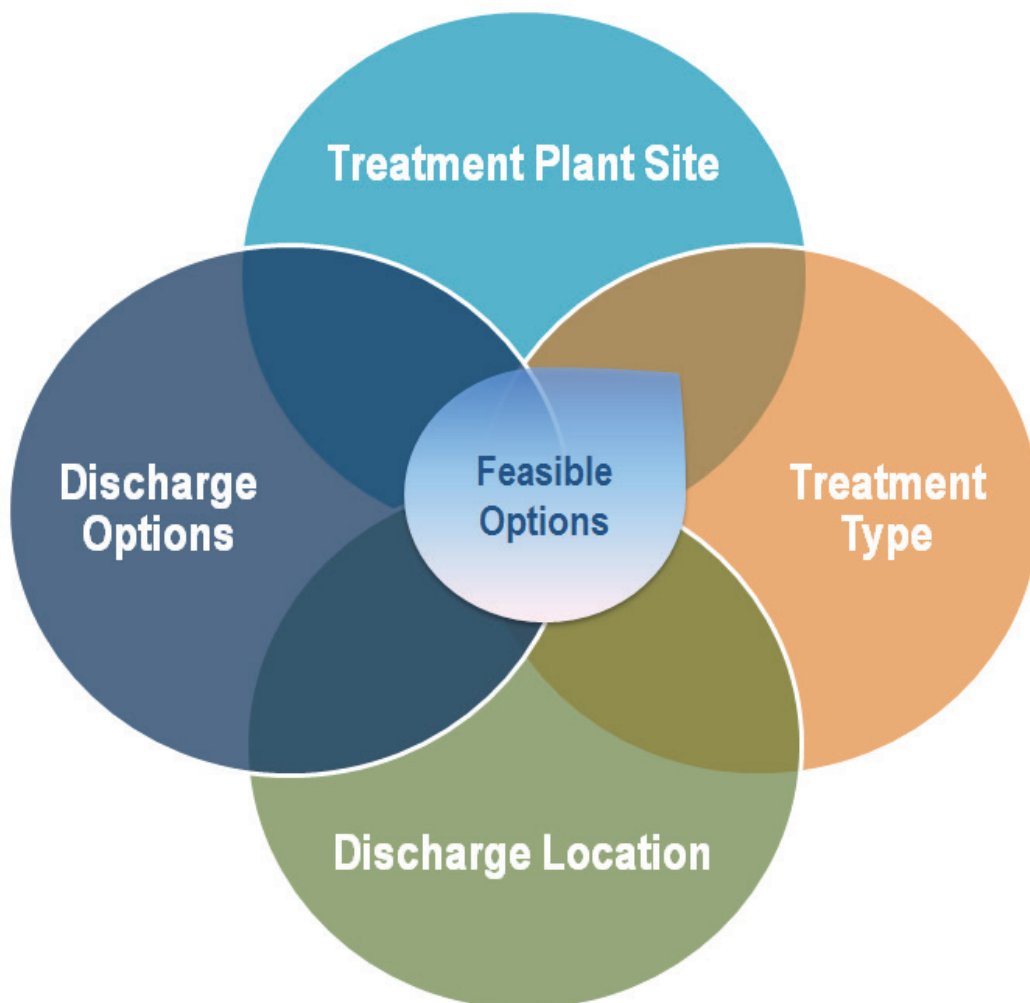

Waiuku
Community Centre
King Street,
